VI. 完形填空 (共 10 小题, 每小题 1 分, 计 10 分)

阅读下面短文, 掌握其大意, 然后从各小题所给的四个选项中选出最佳选项。

The most positive (乐观的) person I have ever seen is my dad! He is so positive that I do not 46 hearing a single word from him which is related (相关的) to hopelessness!

Unlike most mums and dads, my dad never says things that make me feel 47. He is always there to give me encouragement and help. 48 I do wrong things, he always tells me what's right in a positive way. For example, if I am in 49, he often tells me to open the books he bought me. Then he asks me to read the 50 that can help me with the problems I'm facing. After that, we have a 51 together.

Even though I'm not always a good kid, my dad 52 shouts or gets angry with me. I know that he's 53 a day—a day when I grow up and understand things in my life.

I can see the reason that he is so positive is because he believes in 54. And he believes that whatever 55, it is under control. So we have nothing to worry about. Be positive!

"Homestay is a form of study abroad program. It allows the visitor to rent a room from a local (当地的) family to better understand the local lifestyle. It also helps to improve the visitor's language ability," said a teacher during a school meeting last term. "Students who wish to learn more about foreign cultures or to get foreign experience should join this kind of holiday. I am sure you won't be disappointed (失望的)."

After this special meeting, I always thought about this kind of holiday. Last month, I had a chance at last to go on such a holiday with some of my schoolmates and we went to London, a place where I had wanted to go since years ago.

As we were still young, we had a group leader who planned things for us and looked after us. After we got to London, we went to stay with different families. I was lucky that my host family (寄宿家庭) was a white couple who had a daughter about my age. They treated me as a daughter of their family during my stay there. They were interested in me and I learnt a lot of things from them, too.

The holiday was filled with activities every day. After breakfast, a local teacher would come to take us in his car. Then we would have classes or go on a sight-seeing trip to different places of interest like the Big Ben, the London Bridge, and the Buckingham Palace. We would go back to our own homes after the activities.

The holiday was a valuable experience for me. I enjoyed every minute of it. Yet, time really flew fast. Three weeks later, we had to leave "home" for Hong Kong.

It is true that people with better education are usually able to get better paying jobs. In other words, they have more chances to choose a good job while people with little or no education don't. It seems that the purpose of education is to make people get jobs. But this isn't accepted by all people.

Some people may think that a person should spend the best years of his life to get education only for a way of living. This was probably one of the earliest reasons of education. In fact, if education is just a way of making a living, people don't need to spend so much time in school. People can get education for a living in a short time. Subjects like history and geography need not be taught to everyone. Even language and mathematics need not be taught in detail (详细地), either. Here it is clear that education is much more than teaching a man to get a way of living.

Education is well-rounded and it is mainly for improving a man. It is not only to teach him to speak, read and write, but also to develop his creative thinking and other abilities. After that, it is to make him a wise man and thankfully enjoy the achievements of human. Education is to make a man lead a better life. Educated people are expected to be able to listen to good music, read good books, watch plays and most of all take an interest in the world.

I would agree that making a good living is an important reason for education, but certainly not the most important or the main reason.

IX. 任务型阅读 (共 5 小题, 每小题 2 分, 计 10 分)

阅读短文, 并按要求完成 76~80 题。

Cyril Dick's house is neither a modern house nor a house of the future. It is 40 years old. There are more houses like that in the south of France. They are called "bubble houses", and you can see why!

Cyril Dick is a designer and he loves round things. He collects old records and clocks. He also collects round furniture. And now he has a completely round house.

Everything in the "bubble house" is round. The centre of the house is one very big bubble. This is both the living room and dining room. There are round armchairs, a round table, and a big round rug (地毯) in front of a round fireplace. Around the living room are three small bubbles. One bubble is a kitchen with round shelves, another bubble is the garden room, and the third bubble is a music room. Upstairs there are two more bubbles—a bedroom and a bathroom.

The doors and windows are also round, of course. The windows are like eyes. There aren't any curtains (窗帘) in the house, because Cyril likes to see the garden all the time.

Bubble houses are the idea of a Hungarian architect (建筑师), Antti Lovag. "A lot of modern houses are bad for us, especially tall buildings of flats," says Lovag. "Because round homes are more natural, people feel happy in them." Cyril agrees with this. "Some people think my house is funny," he says, "but for me, this is the perfect home."

B) 91. One possible version

I think talking about hobbies is better than talking about lucky money. It is easy and interesting. Everyone has his own hobby, like playing ball games, listening to music, drawing and so on. It can bring us pleasure and make us relaxed. We have a lot to say when we talk about it.

Lucky money, however, isn't a proper topic for us, because it's too personal. What's more, not all of us can get lucky money. Some may feel unhappy if we talk about it.

So talking about hobbies is really a good choice.
