The next day, mum gave me an envelope with a shopping certificate(凭证) in it. "I thought it would be nice for you to give this to John." Mum said. But how? We didn't want to make John embarrassed. We discussed it for a long time. Finally, Betty and I had a good idea.

On the day of our party, kids arrived, dressed differently. John arrived, in an old sheet (床单), but still in the same brown pants as usual. We danced, ate snacks and played games in groups. Before eating the birthday cake, Betty said in a loud voice, "Now it's time for the great prize game. It's the following riddle…" It was a math game. None of us was surprised when John came up with the right answer first and walked off with the envelope.

Everything went on well as we planned. John wore a new pair of pants and a new shirt the next week. He felt happy. So did we

Do you want to live a happier, less stressful(有压力的) life? Try laughing for no reason at all. That's how millions of people start their day at Laughter(笑声) Clubs around the world and many doctors now think that having a good laugh might be one of the best ways to stay healthy.

The first Laughter Club was started in Mumbai, India, in 1995 by Dr. Madan Kataria. "Young children laugh about 300 times a day. Adults laugh between 7 and 15 times a day," says Dr. Kataria. "Everyone is naturally good at laughing — it's the common language. We want people to feel happy with their lives." There are now more than 500 Laughter Clubs in India and over 1,300 in the world.

Many doctors are also interested in the effects(效果) of laughter on our health. Ac-

So what happens at a Laughter Club? I went along to my nearest club in South London to find out. I was quite nervous at the beginning of the class, to be honest, I wasn't interested in laughing with a group of strangers, and I was worried about looking silly. Our laughter teacher told us to clap our hands and say "ho ho ho, ha ha ha" while looking at each other. However, our bodies can't tell the difference between real laughter and unreal laughter, so they still produce the same healthy effects.

Surprisingly, it works! After ten minutes everybody in the room was laughing for real and some people just couldn't stop! At the end of the class I was surprised by how relaxed and comfortable I felt. So if you're under stress, then start laughing. You might be very pleased with the results.

## X. 书面表达

# One possible version

Walking to school is a wonderful way to exercise. I think it's good for health and it's safe. When we walk with our classmates, we can talk about something interesting and know each other better. Also, We can help each other. What's more, if we walk, our parents don't have to send us to school. We can learn to look after ourselves. As a result, there will be fewer cars in the city. Then the streets are no longer crowded. I hope more and more students will go to school on foot.
